Q3. Source Based Questions

Read the source given below and answer the following questions.

In 1848, Frederic Sorrieu, a French Artist prepared a series of four prints visualizing his dream of a world made up of 'democratic and social Republics', as he called them. The first print of the series shows the peoples of Europe and America – men and women of all ages and social classes – marching in a long train, and offering homage to the Statue of Liberty as they pass by it. Artists of the time of the French Revolution personified Liberty as a female figure. She bears the torch of Enlightenment in one hand and the Charter of the Rights of Man in the other. On the earth in the foreground of the image lie the shattered remains of the symbols of absolutist institutions. In Sorrieu's utopian vision, the people of the world are grouped as distinct nations, identified through their flags and national costume. Leading the procession, way past the Statue of Liberty, are the United States and Switzerland, which by this time were already nation-states. France, identifiable by the revolutionary tricolour, has just reached the statue. She is followed by the peoples of Germany, bearing the black, red and gold flag.

Q3. Source Based Questions

Read the source given below and answer the following questions.

The history of many business groups goes back to trade with China. From the late eighteenth century, the British in India began exporting opium to China and took tea from China to England. Many Indians became junior players in this trade, providing finance, procuring supplies, and shipping consignments. Having earned through trade, some of these businessmen had visions of developing industrial enterprises in India. In Bengal, Dwarkanath Tagore made his fortune in the China trade before he turned to industrial investment, setting up six joint-stock companies in the 1830s and 1840s. Tagore's enterprises sank along with those of others in the wider business crises of the 1840s, but later in the nineteenth century many of the China traders became successful industrialists. In Bombay, Parsis like Dinshaw Petit and Jamsetjee Nusserwanjee Tata who built huge industrial empires in India, accumulated their initial wealth partly from exports to China, and partly from raw cotton shipments to England. Q3. Source Based Questions

Read the source given below and answer the following questions.

The power of the printed word is most often seen in the way governments seek to regulate and suppress print. The colonial government kept continuous track of all books and newspapers published in India and passed numerous laws to control the press. During the First World War, under the Defence of India Rules, 22 newspapers had to furnish securities. Of these, 18 shut down rather than comply with government orders. The Sedition Committee Report under Rowlatt in 1919 further strengthened controls that led to imposition of penalties on various newspapers. At the outbreak of the Second World War, the Defence of India Act was passed, allowing censoring of reports of war-related topics. All reports about the Quit India movement came under its purview. In August 1942, about 90 newspapers were suppressed.

Printing created an appetite for new kinds of writing. As more and more people could now read, they wanted to see their own lives, experiences, emotions and relationships reflected in what they read. The novel, a literary form which had developed in Europe, ideally catered to this need. It soon acquired distinctively Indian forms and styles. For readers, it opened up new worlds of experience, and gave a vivid sense of the diversity of human lives. Other new literary forms also entered the world of reading.

Q3. Source Based Questions

Read the source given below and answer the following questions.

India has varied relief features- landforms, climatic realms and vegetation types. These have contributed in the development of various types of soils. Alluvial soil is the most widely spread and important soil. In fact, the entire northern plains are made of alluvial soil. These have been deposited by three important Himalayan River systems- the Indus, the Ganga and Brahmaputra. These soils also extend in Rajasthan and Gujarat through a narrow corridor. Alluvial soil is also found in the eastern coastal plains particularly in the deltas of Mahanadi, the Godavari, the Krishna and Kaveri rivers. The alluvial soil consists of various proportions of sand, silt and clay. As we move inland towards the river valleys, soil particles appear somewhat bigger in size. In the upper reaches of the river valley, the soils are coarse.

 - a. Iron ore mining
 - b. Oil exploration
 - c. Dolomite mining in that area
 - d. Volcanic eruption in that area

- iii. Which one of the following is not responsible for the decline in India's biodiversity?
- | | |
|----------------------|-------------------------|
| a. Mining activities | b. Hunting and poaching |
| c. Forest fire | d. Afforestation |
- iv. We need to conserve our forests and wildlife
- | |
|---|
| a. to preserve the ecological diversity |
| b. to preserve the genetic diversity |
| c. for maintenance of aquatic biodiversity |
| d. so that we are able to over-extract plant and animal species |
- v. The Mundas and Santhals of Chhota Nagpur region worship which one of the following trees?
- | | |
|-----------|-------------|
| a. Mahua | b. Mango |
| c. Peepal | d. Tamarind |

Q2. Assertion and Reason Type Questions

Two statements are given in the questions given below as Assertion (A) and Reason (R).

Read the statements and choose the appropriate option.

- i. Assertion(A): The Asiatic cheetah is nearly extinct.
Reason(R): It is due to decline of available habitat and prey.
- | |
|---|
| a. Both A and R are true and R is the correct explanation of A. |
| b. Both A and R are true but R is the not the correct explanation of A. |
| c. A is true but R is false. |
| d. A is false but R is true. |
- ii. Assertion(A): Forests play a key role in the ecological system.
Reason(R): Protected forests are protected from any further depletion.
- | |
|---|
| a. Both A and R are true and R is the correct explanation of A. |
| b. Both A and R are true but R is the not the correct explanation of A. |
| c. A is true but R is false. |
| d. A is false but R is true. |

Q3. Source Based Questions

Read the source given below and answer the following questions.

In the 1960s and 1970s, conservationists demanded a national wildlife protection programme. The Indian Wildlife (Protection) Act was implemented in 1972, with various provisions for protecting habitats. An All India list of protected species was also published. The thrust of the programme was towards protecting the remaining population of certain endangered species by banning hunting, giving legal protection to their habitats, and restricting trade in wildlife.

Subsequently, central and many state governments established national parks and wildlife sanctuaries about which you have already studied. The central government also announced several projects for protecting specific animals, which were gravely threatened, including the tiger, the one-horned rhinoceros, the Kashmir stag or hangul, three types of crocodiles - freshwater crocodile, saltwater crocodile and the Gharial, the Asiatic lion, and others. Most recently the Indian elephant, black buck (chinkara), the great Indian bustard (godawan) and the snow leopard, etc. have been given full or partial legal protection against hunting and trade throughout India.

- i. Which act was implemented in 1972?
- | |
|---|
| a. The Indian Wildlife Act |
| b. The Indian Environment Act |
| c. The Indian Forest Act |
| d. The Indian Environmental Impact Assessment Act |
- ii. Who demanded the National Wildlife Protection program?
- | | |
|------------------------|-------------------------|
| a. The politicians | b. The conservationists |
| c. The forest dwellers | d. The common masses |

- iii. Which animals have been recently given full or partial legal protection against hunting and trade throughout India?
 - a. The Indian elephant, Bengal Tiger, the vulture and the snow leopard, etc.
 - b. The Indian elephant, Bengal Tiger, the great Indian bustard and the cheetah, etc.
 - c. The Indian elephant, Black buck, the great Indian bustard and the snow leopard, etc.
 - d. The Indian elephant, Bengal Tiger, the great Indian bustard and the snow leopard, etc.
- iv. The central government has announced projects for the protecting of which of the following set of species?
 - a. The Asiatic lion, Vulture and Snow leopard.
 - b. The Indian elephant, Asiatic lion and Gangetic dolphins.
 - c. The Gharials, Tiger and the Asiatic lion.
 - d. The Indian elephant, dolphins and Bengal tiger.

Q4. Answer the following questions.

- i. What is the share of India in the total number of species in the world?
- ii. Which states have less than 10% of their area under forests?
- iii. Which state has the largest area under permanent forests?
- iv. What is the approximate number of species of animals found in India?
- v. Name four animals and two species of flora which are on the verge of extinction.
- vi. List six factors which have led to the decline in India's biodiversity.
- vii. List various provisions made by "The Indian Wildlife (Protection) Act 1972" for protecting habitats.
- viii. Which agency manages forests in India? Name three broad categories in which the forests are classified.
- ix. "The destruction of biodiversity is highly correlated with the loss of cultural diversity." Give four facts to support this statement.
- x. What is biodiversity? Why is biodiversity important for human lives? Give three points.

CHAPTER-3 WATER RESOURCES

Q1. Objective Type Questions

Select the correct answers for the following questions.

- i. Which of these is not a source of fresh water?

a. Glaciers and ice sheets	b. Groundwater
c. Rivers	d. Oceans
- ii. Agricultural fields which are used as rainfed storage structures are called

a. Kuls	b. Khadins/Johads
c. Recharge pits	d. None of the above
- iii. Bamboo drip irrigation system is prevalent in

a. Manipur	b. Meghalaya
c. Mizoram	d. Madhya Pradesh
- iv. Which of the following social movements is/are a resistance to multi-purpose projects?

a. Narmada Bachao Andolan	b. Tehri Dam Andolan
c. Chipko Movement	d. Both a and b
- v. In India _____ contributes approximately 22 percent of the total electricity produced.

a. Tidal power	b. Nuclear power
c. Thermal power	d. Hydroelectric power

Q2. Assertion and Reason Type Questions

Two statements are given in the questions given below as Assertion (A) and Reason (R).

Read the statements and choose the appropriate option.

- i. Assertion (A): Most of the objections to the projects arose due to their success to achieve the

purposes for which they were built.

Reason (R): Ironically, the dams that were constructed to control floods have triggered floods due to sedimentation in the reservoir.

- a. Both A and R are true and R is the correct explanation of A.
- b. Both A and R are true but R is not the correct explanation of A.
- c. A is true but R is false.
- d. A is false but R is true.

- ii. Assertion (A): Today, the dams are built not just for irrigation but for electricity generation, water supply for domestic and industrial uses, flood control, recreation, inland navigation and fish breeding.

Reason (R): Hence, dams are now referred to as multi-purpose projects where the many uses of the impounded water are integrated with one another.

- a. Both A and R are true and R is the correct explanation of A.
- b. Both A and R are true but R is not the correct explanation of A.
- c. A is true but R is false.
- d. A is false but R is true.

Q3. Source Based Questions

Read the source given below and answer the following questions.

Many thought that given the disadvantages and rising resistance against the multipurpose projects, water harvesting system was a viable alternative, both socio-economically and environmentally. In ancient India, along with the sophisticated hydraulic structures, there existed an extraordinary tradition of water-harvesting system. People had in-depth knowledge of rainfall regimes and soil types and developed wide ranging techniques to harvest rainwater, groundwater, river water and flood water in keeping with the local ecological conditions and their water needs. In hill and mountainous regions people built diversion channels like the 'guls' or 'kuls' of the Western Himalayas for agriculture. 'Rooftop rainwater harvesting' was commonly practised to store drinking water, particularly in Rajasthan. In the flood plains of Bengal, people developed inundation channels to irrigate their fields. In arid and semi-arid regions, agricultural fields were converted into rainfed storage structures that allowed the water to stand and moisten the soil like the 'khadins' in Jaisalmer and 'Johads' in other parts of Rajasthan.

- i. What were 'guls' or 'kuls'?
 - a. They were water diversion channels.
 - b. They were road diversion channels.
 - c. They were local people of Rajasthan.
 - d. These were the only two wells available in Rajasthan.
- ii. Where is rooftop rainwater harvesting practiced commonly?
 - a. Jaisalmer
 - b. Bengal
 - c. Rajasthan
 - d. Western Himalayas
- iii. India tracing the sophisticated hydraulic structures since which era?
 - a. Ancient era
 - b. Modern era
 - c. Mesozoic era
 - d. Christian era
- iv. What is the most common use of rooftop rainwater harvesting?
 - a. To store water for growing vegetables
 - b. To store drinking water
 - c. To supply water in industries
 - d. To store water for cattle only

Q4. Answer the following questions.

- i. What kind of resource is water?
- ii. Which is the major source of freshwater in India?
- iii. Which river is called as 'river of sorrow'?
- iv. On which river Salal Dam is built?

- v. Give some facts and figures about the water resources in the world.
- vi. Write three sources of fresh water.
- vii. Explain three causes of water scarcity.
- viii. What is a multi-purpose river project? Give four objectives of these projects.
- ix. Describe the factors that are responsible for the various objections against the multi-purpose projects.
- x. 'Construction of dams on rivers has caused environmental degradation.' Give reasons to support this statement.

Q5. Map Based Question

On the Outline Political map of India locate and label the following dams.

- i. Salal
- ii. Tehri
- iii. Nagarjuna Sagar
- iv. Tungbhadra

CHAPTER-4 AGRICULTURE

Q1. Objective Type Questions

Select the correct answers for the following questions.

- i. Which one of the following is a leguminous crop?
 - a. Pulses
 - b. Millets
 - c. Jowar
 - d. Sesame
- ii. Coffee was brought from which of the following countries to India?
 - a. Brazil
 - b. Yemen
 - c. Chile
 - d. United Kingdom
- iii. This variety of coffee is grown in India and known for its flavour.
 - a. Robusta
 - b. Madrasi
 - c. Arabica
 - d. Deccan
- iv. Kharif crops are grown
 - a. With the onset of monsoon and harvested in September-October
 - b. With the onset of winter and harvested in summer
 - c. With onset of Autumn and harvested in summer
 - d. None of the above
- v. Which one of the following is not true for pulses?
 - a. Pulses are grown in both rabi and kharif season.
 - b. Pulses are leguminous crops.
 - c. They are grown in rotation with other crops.
 - d. Pulses require intensive irrigation facilities.

Q2. Assertion and Reason Type Questions

Two statements are given in the questions given below as Assertion (A) and Reason (R).

Read the statements and choose the appropriate option.

- i. Assertion (A): Crops are grown depending on the variation in soil, climate and cultivation practices.
Reason (R): Crops are also grown according to availability of water.
 - a. Both A and R are true and R is the correct explanation of A.
 - b. Both A and R are true but R is the not the correct explanation of A.
 - c. A is true but R is false.
 - d. A is false but R is true.
- ii. Assertion (A): Jute grows well on well drained fertile soils in the flood plains where soils are renewed every year.
Reason(R): West Bengal, Bihar, Assam, Odisha and Meghalaya are the major jute producing states.
 - a. Both A and R are true and R is the correct explanation of A.
 - b. Both A and R are true but R is the not the correct explanation of A.

- c. A is true but R is false.
- d. A is false but R is true.

Q3. Source Based Questions

Read the source given below and answer the following questions.

Plantation is also a type of commercial farming. In this type of farming, a single crop is grown on a large area. The plantation has an interface of agriculture and industry. Plantations cover large tracts of land, using capital intensive inputs, with the help of migrant labourers. All the produce is used as raw material in respective industries. In India, tea, coffee, rubber, sugarcane, banana, etc. are important plantation crops. Tea in Assam and North Bengal, coffee in Karnataka are some of the important plantation crops grown in these states. Since the production is mainly for market, a well developed network of transport and communication connecting the plantation areas, processing industries and markets plays an important role in the development of plantations.

- i. Tea, coffee, banana, _____ and rubber are major crops which come under _____.
 - a. bajra; shifting agriculture
 - b. sugarcane; shifting agriculture
 - c. sugarcane; plantation farming
 - d. wheat; horticulture
- ii. In commercial farming, a single crop is grown on a large area. Identify which state the following crops mainly belong to.

Crops	States
A. Sugarcane	1. Assam
B. Tea	2. Karnataka
C. Rubber	3. Uttar Pradesh
D. Coffee	4. Kerala

Choose the correct option.

- a. A-2, B-1, C-4, D-3
- b. A-3, B-1, C-4, D-2
- c. A-1, B-2, C-3, D-4
- d. A-4, B-2, C-1, D-3
- iii. Which commercial crops are cultivable in laterite soil?
 - a. Rubber and sugarcane
 - b. Cotton and jute
 - c. Barley and gram
 - d. Tea and coffee
- iv. Which of the following statements is incorrect in context of plantation farming?
 - a. It is practiced in areas where population pressure on land is high.
 - b. It has an interface of agriculture and industry.
 - c. It requires well-developed network of transport and communication connecting the plantation areas.
 - d. None of the above

Q4. Answer the following questions.

- i. Which fibre crop is called the golden fibre?
- ii. Name any two schemes introduced by the government to benefit farmers.
- iii. Name three important wheat-producing states of India.
- iv. What is the PDS programme of the Government of India?
- v. Why does the government announce minimum support price, remunerative and procurement prices for important crops?
- vi. "Agriculture is the mainstream of the Indian economy". Explain the statement by giving three points.
- vii. Highlight any three differences between primitive subsistence farming and commercial farming.
- viii. What are the fibre crops of India and from where are these obtained?
- ix. Compare 'intensive subsistence farming' with that of 'commercial farming' practiced in India.
- x. Mention the government of India's efforts to modernize agriculture.
- xi. Define plantation farming. What are its main characteristics? Name any five plantation crops of India.

CHAPTER-5 MINERALS AND ENERGY RESOURCES

Q1. Objective Type Questions

Select the correct answers for the following questions.

- i. The pair of states which has most of the petroleum deposits.
 - a. Rajasthan and Karnataka
 - b. Assam and Gujarat
 - c. Gujarat and Maharashtra
 - d. Odisha and Goa
- ii. Aluminium is obtained from
 - a. bauxite
 - b. limestone
 - c. copper
 - d. manganese
- iii. Which one of the following non-conventional sources of energy is harnessed near Manikaran in Himachal Pradesh?
 - a. Geothermal Energy
 - b. Wind energy
 - c. Solar energy
 - d. None of the above
- iv. Which one of the following states, is the largest producer of copper in India?
 - a. Odisha
 - b. Karnataka
 - c. Madhya Pradesh
 - d. Gujarat
- v. Gold, Silver and Platinum are examples of
 - a. Ferrous minerals
 - b. Non-ferrous minerals
 - c. Precious minerals
 - d. Non-metallic minerals

Q2. Assertion and Reason Type Questions

Two statements are given in the questions given below as Assertion (A) and Reason (R).

Read the statements and choose the appropriate option.

- i. Assertion (A): Iron ore is the basic mineral and the backbone of India.
Reason (R): India is rich in good quality Iron ore.
 - a. Both A and R are true and R is the correct explanation of A.
 - b. Both A and R are true but R is not the correct explanation of A.
 - c. A is true but R is false.
 - d. A is false but R is true.
- ii. Assertion (A): Minerals are an indispensable part of our lives.
Reason (R): Minerals have a universal use, they are used to manufacture everything we use in our day-to-day lives.
 - a. Both A and R are true and R is the correct explanation of A.
 - b. Both A and R are true but R is not the correct explanation of A.
 - c. A is true but R is false.
 - d. A is false but R is true

Q3. Source Based Questions

Read the source given below and answer the following questions.

Energy is required for all activities. It is needed to cook, to provide light and heat, to propel vehicles and to drive machinery in industries. Energy can be generated from fuel minerals like coal, petroleum, natural gas, uranium, and electricity. Energy resources can be classified as conventional and non-conventional sources. Conventional sources include firewood, cattle dung cake, coal, petroleum, natural gas, and electricity both hydel and thermal. Non-conventional sources include solar, wind, tidal, geothermal, biogas, and atomic energy. Firewood and cattle dung cake is most common in rural India. According to one estimate, more than 70 percent of energy requirement in rural households is met by these two; continuation of these is increasingly becoming difficult due to decreasing forest area. Moreover, using dung cake too is being discouraged because it consumes most valuable manure which could be used in agriculture.

- i. Which of the following statement is true about conventional energy resources?
 - a. They cause minimum pollution.
 - b. They are available in limited quantity.
 - c. Cattle dung is the most used energy in the world.
 - d. There are sufficient reserves of conventional energy sources.
- ii. Which of the following resources does not generate energy?
 - a. Coal
 - b. Fuel
 - c. Natural gas
 - d. None of these
- iii. Which of the following energy is the non-conventional source of energy?
 - a. Firewood
 - b. Tidal energy
 - c. Natural gas
 - d. Petroleum
- iv. Firewood and cattle dung cake are most common energy in rural India because
 - a. They are easily available.
 - b. They are non-conventional.
 - c. They produce high energy.
 - d. They are in high demand.

Q4. Answer the following questions.

- i. What are veins and lodes?
- ii. Name the regions rich in mineral oil in India.
- iii. How are gobar gas plants beneficial to the farmers?
- iv. What are 'placer deposits'?
- v. How is hydroelectricity generated? What advantages does it have over thermal electricity?
- vi. How can solar energy solve the energy problem to some extent in India? Give your opinion.
- vii. "Natural gas is the source of clean energy". Support the statement with examples.
- viii. What is known as a basic mineral? Why is it considered the backbone of industrial development?
- ix. Explain the reasons for concentration of iron and steel industries in and around Chhotanagpur region.
- x. Which is the most abundantly available fossil fuel in India? What are its three major forms? Write main features of each form.
- xi. Why is coal the most important energy resource even today? Give any three reasons.
- xii. Why is conservation of mineral resources essential? Justify your statement.

Q5. Map Based Question

On the Outline Political map of India locate and label the following.

- | | |
|------------------------------------|-----------------------------------|
| i. Namrup Thermal Power Plant | ii. Singrauli Thermal Power Plant |
| iii. Kakrapara Nuclear Power Plant | iv. Narora Nuclear Power Plant |

CHAPTER-6 MANUFACTURING INDUSTRIES

Q1. Objective Type Questions

Select the correct answers for the following questions.

- i. The contribution of manufacturing to the GDP of some East Asian economies is _____.
 - a. 25 to 35 percent
 - b. 5 to 10 percent
 - c. 5 to 15 percent
 - d. Above 50%
- ii. Industrial locations are influenced by availability of _____.
 - a. Market
 - b. Labour
 - c. Raw materials
 - d. All of the above
- iii. On the basis of raw materials used, industries are classified as _____.
 - a. Public sector and private sector
 - b. Basic industries and consumer industries
 - c. Agro-based and mineral-based industries
 - d. None of the above

- iv. _____ are owned and operated by the producers or suppliers of raw materials, workers or both.
- | | |
|----------------------------------|----------------------------|
| a. Cooperative sector industries | b. Heavy industries |
| c. Light industries | d. Public sector companies |
- v. _____ is the only industry in the country, which is self-reliant and complete in the value chain i.e. from raw material to the highest value added products.
- | | |
|-------------------------|---------------------|
| a. Agriculture industry | b. Textile industry |
| c. Light industry | d. Heavy industry |

Q2. Assertion and Reason Type Questions

Two statements are given in the questions given below as Assertion (A) and Reason (R). Read the statements and choose the appropriate option.

- i. Assertion (A): Aluminum smelting is the second most important metallurgical industry in India.
Reason (R): It is light, resistant to corrosion, a good conductor of heat.
- | |
|---|
| a. Both A and R are true and R is the correct explanation of A. |
| b. Both A and R are true but R is the not the correct explanation of A. |
| c. A is true but R is false. |
| d. A is false but R is true. |
- ii. Assertion (A): Almost all machinery can be redesigned and generators should be fitted with silencers.
Reason (R): Old machinery produces noise and consumes high energy.
- | |
|---|
| a. Both A and R are true and R is the correct explanation of A. |
| b. Both A and R are true but R is the not the correct explanation of A. |
| c. A is true but R is false. |
| d. A is false but R is true. |

Q3. Source Based Questions

Read the source given below and answer the following questions.

Manufacturing sector is considered the backbone of development in general and economic development in particular mainly because–

- Manufacturing industries not only help in modernising agriculture, which forms the backbone of our economy, they also reduce the heavy dependence of people on agricultural income by providing them jobs in secondary and tertiary sectors.
- Industrial development is a precondition for eradication of unemployment and poverty from our country. This was the main philosophy behind public sector industries and joint sector ventures in India. It was also aimed at bringing down regional disparities by establishing industries in tribal and backward areas.
- Export of manufactured goods expands trade and commerce, and brings in much needed foreign exchange.
- Countries that transform their raw materials into a wide variety of finished goods of higher value are prosperous. India's prosperity lies in increasing and diversifying its manufacturing industries as quickly as possible.

i. How do manufacturing industries help in agriculture?

- | | |
|--|---------------|
| I. Modernize the agriculture | |
| II. Reduce heavy dependence of people on agriculture | |
| III. Provide the people jobs in secondary and tertiary sectors | |
| a. Only I | b. II and III |
| c. I, II and III | d. I and III |

- ii. What are the benefits of export of manufactured goods?
 - a. Expand trade and commerce
 - b. Bring MNCs to our country
 - c. Eradicate poverty
 - d. Other countries prosper
- iii. Manufacturing industries are considered the backbone of development because they
 - a. Bring in foreign exchange
 - b. Eradicate unemployment and poverty
 - c. Help the country prosper
 - d. All of these
- iv. India's prosperity lies in _____ and diversifying its manufacturing industries.
 - a. Decreasing
 - b. Increasing
 - c. Changing
 - d. Reducing

Q4. Answer the following questions.

- i. What are Consumer Industries? Give an example.
- ii. Classify industries on the basis of capital investment.
- iii. Name the physical factors that affect location of industries.
- iv. How industries are divided on the basis of capital investment?
- v. Explain any three physical factors that affect the location of any industry.
- vi. "Agriculture and industry are complementary to each other." Support the statement giving three points.
- vii. Why is iron and steel industry called the basic industry? Explain any three reasons.
- viii. Explain the importance of IT and electronics industry in India.
- ix. What is NTPC? What steps have been taken by NTPC towards environment protection?
- x. Classify industries on the basis of ownership and capital investment.

Q5. Map Based Question

On the Outline Political map of India locate and label these Software Technology Parks.

- i. Noida
- ii. Pune
- iii. Chennai
- iv. Hyderabad

CHAPTER-7 LIFELINES OF NATIONAL ECONOMY

Q1. Objective Type Questions

Select the correct answers for the following questions.

- i. Which one of the following groups of cities is connected by the National Highway No. 1?
 - a. Kolkata-Amritsar
 - b. Ranchi-Kolkata
 - c. Delhi-Amritsar
 - d. Varanasi-Kanyakumari
- ii. Which one of the following is not an advantage of pipeline transportation?
 - a. Pipelines are used for transporting crude oil and gas from fields to refineries.
 - b. Solids can be transported in slurry form through pipelines.
 - c. Pipelines rule out trans-shipment losses or delays.
 - d. Initial cost of laying a pipeline is high.
- iii. Which two of the following extreme locations are connected by the east-west corridor?
 - a. Mumbai and Nagpur
 - b. Silchar and Porbandar
 - c. Mumbai and Kolkata
 - d. Nagpur and Siliguri
- iv. Which one of the following States is not connected with the H.V.J. pipeline?
 - a. Madhya Pradesh
 - b. Maharashtra
 - c. Gujarat
 - d. Uttar Pradesh
- v. Which one of the following terms is used to describe trade between two or more countries?
 - a. Internal trade
 - b. International trade
 - c. External trade
 - d. Local trade

Q2. Assertion and Reason Type Questions

Two statements are given in the questions given below as Assertion (A) and Reason (R).
Read the statements and choose the appropriate option.

- i. Assertion (A): Mass communication promotes national integration and provides entertainment.
Reason (R): It strengthens democracy in the country by providing news to the masses. They feel attached to the country and a feeling of nationalism arises in them.
 - a. Both A and R are true and R is the correct explanation of A.
 - b. Both A and R are true but R is not the correct explanation of A.
 - c. A is true but R is false.
 - d. A is false but R is true.
- ii. Assertion (A): Tourism promotes national integration.
Reason (R): Millions of people are directly engaged in tourism industry.
 - a. Both A and R are true and R is the correct explanation of A.
 - b. Both A and R are true but R is not the correct explanation of A.
 - c. A is true but R is false.
 - d. A is false but R is true.

Q3. Source Based Questions.

Read the source given below and answer the following questions.

Railways are the principle mode of transportation for freight and passengers in India. Railways also make it possible for people to conduct multifarious activities like business, sightseeing, pilgrimage along with transportation of goods over longer distances. Apart from an important means of transport the Indian Railways have been a great integrating force for more than 150 years. Railways in India bind the economic life of the country as well as accelerate the development of the industry and agriculture. The Indian Railway is now reorganized into 16 zones. The distribution pattern of the Railway network into country has been largely influenced by physiographic economic and administrative factors. The Northern plains with their vast level and, high population density and rich agricultural resources provided the most favorable condition for their growth. However, a large number of rivers requiring construction of bridges across their wide beds pose some obstacles. In the hilly terrains of the peninsular region, railway tracts are laid through low hills, gaps or tunnels.

- i. Which is the most principle mode of transportation in India?
 - a. Waterways
 - b. Railways
 - c. Airways
 - d. Roadways
- ii. Which factors have influenced the distribution pattern of Railway network?
 - a. Physiographic factors
 - b. Economic factors
 - c. Social factors
 - d. Both a and b
- iii. Why is it favourable to lay the network of railways in the northern plains?
 - a. Vast land
 - b. High population density
 - c. Rich agricultural resources
 - d. All of these
- iv. What purpose railway does not solve for the people of India?
 - a. People go for business, sightseeing and pilgrimage.
 - b. Binds the economic life of the country.
 - c. Decreases the development of the industry and agriculture.
 - d. Integrating force for the people of country.

Q4. Answer the following questions.

- i. Which factors are responsible for distribution pattern of railways network in the country?
- ii. Why Indian railway network is mostly concentrated in Ganga Plains?
- iii. Why is the Indian Railways called the lifeline of the country? Give any three suitable reasons.
- iv. Why is there the need for transport system? Mention any one reason.
- v. What are the problems of Indian Railway?

- vi. What are the factors for growing importance of the roadways ? State two factors.
- vii. State any two points of importance of mass communication.
- viii. What is trade balance? What are its two components? Explain.
- ix. Give reasons why India has been able to develop her trade and extend her boundaries.
- x. "Road and Rail transport in India are not competitive but complementary to each other." Justify the statement.
- xi. "Dense and efficient network of transport is a pre-requisite for local and national development." Analyze the statement.
- xii. What are border roads? Mention two reasons why they are important.
- xiii. Explain the importance of railways as a means of transport.
- xiv. "Tourism has a great importance in the economy and cultural development of India". Justify the statement.

Q5. Map Based Question

- i. On the Outline Political map of India locate and label these Ports.
 - a. Kandla
 - b. Marmagao
 - c. Kochi
 - d. Paradip
- ii. On the Outline Political map of India locate and label these International Airports.
 - a. Delhi (Indira Gandhi)
 - b. Chennai (Meenam Bakkam)
 - c. Mumbai (Chhatrapati Shivaji)

POLITICAL SCIENCE CHAPTER-1 POWER SHARING

Q1. Objective Type Questions

Select the correct answers for the following questions.

- i. Brussels was chosen the headquarters of
 - a. G-5
 - b. G-77
 - c. European Union
 - d. None of these
- ii. Which of the following is not a form of power sharing?
 - a. Horizontal division of power
 - b. Vertical division of power
 - c. Division of power among social groups
 - d. Division of power among people

Q3. Source Based Questions

Read the source given below and answer the following questions.

Belgium is a small country in Europe which shares its borders with France, Germany, Luxembourg and the Netherlands. 59% of the population in the Flemish region speaks Dutch, another 40% people live in the Wallonia region and speak French. The remaining 1% of the Belgians speak German. Brussels, which is the capital city of Belgium, is home to 80% people who speak French while 20% speak Dutch. The minority French-speaking community was relatively rich and powerful. The Dutch-speaking community who got the benefit of the economic development and education much later resented this fact. Hence, the tension between these two communities was very severe in Brussels. In order to bring harmony between the two communities, Belgium took cognizance of the prevailing regional differences and cultural diversities. From 1970 to 1993, the Belgians made modifications in their constitution four times so as to work out an arrangement that would enable everyone to live together in the same country.

Some elements of the Belgian Constitution are listed below:

The Belgian Constitution prescribes an equal number of Dutch and French-speaking ministers in the Central Government. Many powers of the Central Government have been given to State Governments of two regions of the country. Brussels has a separate Government in which both the communities have equal representation. Apart from the Central and State Government, there is also a third kind of Government. It's called the Community Government. Thus, we can see that in Belgium, the leaders realized that the unity of the country is possible only by respecting the feelings and interests of different communities and regions.

- i. Which of these countries share its boundaries with Belgium?

Q3. Source Based Questions

Read the source given below and answer the following questions.

Rural local government is popularly known as Panchayati Raj. Each village, or a group of villages in some States, has a gram panchayat. This is a council consisting of several ward members, often called panch, and a president or sarpanch. They are directly elected by all the adult population living in a village or ward. Gram Panchayat is the decision-making body for the entire village. The Panchayat works under the overall supervision of the Gram Sabha. All the voters in the village are its members. It has to meet at least twice or thrice in a year to approve the annual budget of the gram panchayat and to review the performance of the Gram Panchayat. When a Gram Panchayat is grouped together, they form a Panchayat Samiti or Block or Mandal. The member of Panchayat Samiti representatives are elected by all the Panchayat members in that area. All the Panchayat Samitis or Mandals in a district together constitute the Zilla district Parishad. Members of the Lok Sabha, MLAs of the district, some other officials of other district-level bodies are the members of Zilla Parishad.

Q3. Source Based Questions

Read the source given below and answer the following questions.

There are reports of various kinds of harassment, exploitation and violence against women. Urban areas have become particularly unsafe for women. They are not safe even within their own home from beating, harassment and other forms of domestic violence. All this is well known. Yet issues related to women's well being or otherwise are not given adequate attention. This has led many feminists and women's movements to the conclusion that unless women control power, their problems will not get adequate attention. One way to ensure this is to have more women as elected representatives. In India, the proportion of women in legislature has been very low. For example, the percentage of elected women members in Lok Sabha has crossed 10 per cent of its total strength for the first time in 2009. Their share in the state assemblies is less than 5 per cent. In this respect, India is among the bottom group of nations in the world.

India is behind the averages for several developing countries of Africa and Latin America. In the government, cabinets are largely all-male even when a woman becomes the Chief Minister or the Prime Minister. One way to solve this problem is to make it legally binding to have a fair proportion of women in the elected bodies. This is what the Panchayati Raj has done in India. One-third of seats in local government bodies – in panchayats and municipalities – are now reserved for women. Now there are more than 10 lakh elected women representatives in rural and urban local bodies. Women's organisations and activists have been demanding a similar reservation of at least one-third of seats in the Lok Sabha and State Assemblies for women. A bill with this proposal has been pending before the Parliament for more than a decade. But there is no consensus over this among all the political parties. The bill has not been passed.

- i. What is false about the condition of women?
 - a. They have to face harassment.
 - b. They are victims of domestic violence.
 - c. They are never exploited in the society.

 - d. A is false but R is true.

Q3. Source Based Questions

Read the source given below and answer the following questions.

We can understand the necessity of political parties by imagining a situation without parties. Every candidate in the elections will be independent. So no one will be able to make any promises to the people about any major policy changes. The government may be formed, but its utility will remain ever uncertain. Elected representatives will be accountable to their locality. But no one will be responsible for how the country will be run. We can also think about it by looking at the non-party based elections to the Panchayat in many states. Although the parties do not contest formally, it is generally noticed that the village gets split into more than one faction, each of which puts up a panel of its candidates. Thus it is exactly what the party does. That is the reason we find political parties in almost all countries of the world whether these countries are big or small, old or new, developed or developing. The rise of political parties is directly linked to the emergence of representative democracies. As we have seen, large societies need representatives of democracy. As societies became large and complex, they also need some agency to gather different views on various issues and to present these to the government.

- i. Which of these statements is not in favour of political parties?
 - a. Political Parties help to develop a public opinion.
 - b. No independent candidate can make any promise to the people.
 - c. Independent elected representatives are only responsible for their own constituency.

 - a. Balanced view
 - b. Common political purpose
 - c. Regional and communal diversities
 - d. Ideal political structure
- iii. Consider the following statements about political parties and choose the correct option.
 - I. Political Parties are a necessary condition for democracy.
 - II. Political Parties help the government to make policies.
 - III. Political Parties justify or oppose the representative governments.Options
 - a. Only I
 - b. Both I and II
 - c. Both II and III
 - d. All of these
- iv. Which of the following describes representative democracy?
 - a. It is not a common form of democracy in the modern age.
 - b. It involves direct participation.
 - c. It involves indirect participation through elected representatives.
 - d. It was the most prevalent form of democracy in the Colonial Era.

 - d. A is false but R is true.

Q3. Source Based Questions

Read the source given below and answer the following questions.

If democracies are expected to produce good governments, then is it not fair to expect that they would also produce development? Evidence shows that in practice many democracies did not fulfill this expectation. If you consider all democracies and all dictatorships for the fifty years between 1950 and 2000, dictatorships have a slightly higher rate of economic growth. The inability of democracy to achieve higher economic development worries us. But this alone cannot be a reason to reject democracy.

As you have already studied in economics, economic development depends on several factors: country's population size, global situation, cooperation from other countries, economic priorities adopted by the country, etc. However, the difference in the rates of economic development between less developed countries with dictatorships and democracies is negligible. Overall, we cannot say that democracy is a guarantee of economic development. But we can expect democracy not to lag behind dictatorships in this respect. When we find such significant difference in the rates of economic growth between countries under dictatorship and democracy, it is better to prefer democracy as it has several other positive outcomes.

- i. How can the poor get a voice for a better share in a nation?
 - a. When they will be given a proper representation.
 - b. When they will get a chance to participate in the decision-making process.
 - c. When they will be given adequate resources and facilities.

 - a. Territory or area of the country
 - b. Cooperation among the various nations
 - c. Size of the country's population
 - d. All of these
- iii. Why should the gains of economic growth be evenly distributed?
 - a. To make an economically even society
 - b. To promote the idea of social justice
 - c. To reduce inequality in the society
 - d. To make the government successful
- iv. What can poor countries do to receive a greater share in the world's wealth?
 - a. They should take initiatives to strengthen their internal democracy.
 - b. They should get united to fight for the cause.
 - c. They should exploit their own available natural resources.
 - d. Both a and b

Q3. Source Based Questions

Read the source given below and answer the following questions.

For comparing countries, their income is considered to be one of the most important attributes. Countries with higher income are more developed than others with less income. This is based on the understanding that more income means more of all things those human beings need. Whatever people like, and should have, they will be able to get with greater income. So, greater income itself is considered to be one important goal. Now, what is the income of a country? Intuitively, the income of the country is the income of all the residents of the country. This gives us the total income of the country. However, for comparison between countries, total income is not such a useful measure. Since, countries have different populations, comparing total income will not tell us what an average

person is likely to earn. Hence, we compare the average income which is the total income of the country divided by its total population. The average income is also called per capita income.

In World Development Reports, brought out by the World Bank, this criterion is used in classifying countries. Countries with per capita income of US\$ 12616 per annum and above in 2012, are called rich countries and those with per capita income of US\$ 1035 or less are called low-income countries. India comes in the category of low middle income countries because its per capita income in 2012 was just US\$ 1530 per annum. The rich countries, excluding countries of Middle East and certain other small countries, are generally called developed countries.

i. Which of the following is the most important component for comparing different countries?

- a. Population
- b. Income
- c. Per capita income
- d. Resources

ii. Pick out the correct meaning listed below to define 'average income'.

- a. Average income of the country means the total income of the country.
- b. The average income in a country is the income of only employed people.
- c. The average income includes the value of property held.
- d. The average income is the same as per capita income.

iii. Per capita income is

- a. Income per person
- b. Income per family
- c. Income per earning person
- d. Income per month

iv. Countries with higher income are _____ than others with less income.

- a. Less developed
- b. More developed
- c. Less strong
- d. More organized

Q3. Source Based Questions

Read the source given below and answer the following questions.

The secondary sector covers activities in which natural products are changed into other forms through ways of manufacturing that we associate with industrial activity. It is the next step after primary. The product is not produced by nature but has to be made and therefore some process of manufacturing is essential. This could be in a factory, a workshop or at home. For example, using cotton fibre from the plant, we spin yarn and weave cloth. Using sugarcane as a raw material, we make sugar or gur. We convert earth into bricks and use bricks to make houses and buildings. Since this sector gradually became associated with the different kinds of industries that came up, it is also called as industrial sector.

Q3. Source Based Questions

Read the source given below and answer the following questions.

In recent years, people have tried out some newer ways of providing loans to the poor. The idea is to organise rural poor, in particular women, into small Self Help Groups SHGs and pool collect their savings. A typical SHG has 15-20 members, usually belonging to one neighbourhood, who meet and save regularly. Saving per member varies from 25 to 100 or more depending on the ability of the people to save. Members can take small loans from the group itself to meet their needs. The group charges interest on these loans but this is still less than what the moneylender charges. After a year or two, if the group is regular in savings, it becomes eligible for availing loan from the bank. Loan is sanctioned in the name; of the group and is meant to create self-employment opportunities for the members. For instance, small loans are provided to the members for releasing mortgaged land, for meeting working capital needs e.g. buying seeds, fertilisers, raw materials like bamboo and cloth., for housing materials, for acquiring assets like sewing machine, handlooms, cattle, etc.
